

FIXED FEE PROBATE

For estates not exceeding £375,000 in value and where no Inheritance Tax is due.

Work we will do:

- We will notify the relevant institutions of death and establish the value of the estate's assets/liabilities.
- We will produce a summary of assets/liabilities, which we will send to you for your consideration.
- When the figures have been approved by you, we will prepare an Oath for Executors and Inland Revenue account (either IHT205 or IHT400 as required).
- We will arrange for you to execute the probate papers (in person or by post).
- We will submit the application for a Grant of Probate.
- When the grant issues, we will register copies with the various institutions, where estate assets are held and arrange to close accounts and to encash/transfer investments.
- We will settle outstanding bills from the funds we receive.
- We will settle any legacies from the funds we receive.
- We will consider with you how to deal with any trust contained within the Will and will take the follow up action as agreed. (if applicable)
- We will produce a cash movement statement for your consideration.
- When the figures have been approved by you and all loose ends tied, we will distribute any remaining money held by us to the residuary beneficiary(s).
